

New Product Launch USU VIBRATOR/STIMULATOR

Thank you for being a University Specialty Urological (USU) customer.

Many of our patients ask us what vibrator is recommended by physicians to help women achieve results. We are pleased to offer the all new "USU Vibrator/Stimulator".

Our new Vibrator/Stimulator is not only a matter of pleasure, it's a wellness enhancer that is incomparable. It helps the body ease itself, which in turn has positive effects on our emotions and thoughts, and creates an overall sense of well-being. It also relieves pressure and loosens tense muscles, which increases blood flow to the cells. This may help improve function throughout the body including sensual areas.

There are many specific uses of the Vibrator/Stimulator. Some people use it to massage and help relieve back pain, while for others it is more about an overall sensation of well-being and pleasure. It is also used to help prevent injury and speed recovery, by easing inflammation and speeding cell repair. Others believe massage can help ease anxiety, improve sleep, alleviate headaches or even boost immunity.

No matter what your application is, the new USU Vibrator/Stimulator can deliver results that you want.

This is a trusted choice for an all-round personal Vibrator/Stimulator/massager that delivers pleasure and satisfaction, time and time again. Its power and durability has earned it rave reviews from users.

It is available for \$79.95

USU Vibrator/Stimulator

This is a trusted choice for an all-round personal Vibrator/Stimulator/massager that delivers pleasure and satisfaction, time and time again. Its electric power and durability has much more stimulation than any battery operated Vibrator. It is available for \$79.95.

New Product Launch

USU VIBRATOR/STIMULATOR

Care for the USU Vibrator/Stimulator Original Massager:

- For external use only.
- The rated maximum continuous use of massager is 25 minutes.
- When storing unit do not wrap cord around unit; excessive twisting or winding of cord can result in damage.
- When not in use remember to always unplug massager.
- Use mild soap and warm water on a damp wash cloth to clean head of massager.
- Do not use massager over swollen or inflamed areas or skin eruptions. Do not use on unexplained calf pain. Whenever in doubt consult your physician.
- Do not use while bathing or in a shower. Never use any electrical appliance while bathing.
- Never operate the massager if it has a damaged cord or plug.
- Do not carry the massager by the cord or use cord as a handle.
- Do not cover with towel, blanket, or pillow; excessive heat can cause fire or electric shock.
- Never operate the massager with the air opening blocked. Keep air openings free of hair and lint.
